

CPA in Public Accounting Award

Michael Donahue, CPA

I am very honored and humbled to be selected for the CPA in Public Accounting Award. I have been involved with the WICPA in one form or another since 1987, and I truly appreciate being recognized. I can tell you that I definitely have received more from my membership than I have given. I have served on the Wisconsin Taxation Committee and am still active on the Federal Taxation Committee. My involvement has definitely made me a better CPA and has helped the growth of our firm as well. I can't think of a better business organization than the WICPA, and being recognized with this award truly means a lot to me, both personally and professionally.
